FORTINET®

SOLUTIONS BRIEF

Fortinet secures some of the largest enterprise, service provider, and government organizations around the world with intelligent, seamless protection across the expanding attack surface and the power to take on ever-increasing performance requirements of the borderless network. The Fortinet Security Fabric architecture can deliver security without compromise to address the most critical security challenges, whether in networked, application, cloud, or mobile environments.

COQUINA SERVICES FOR FORTINET

As your clients' business evolves, their security capabilities need to keep up. Yet often organizations lack the in-house expertise to deploy, operate, and maintain new capabilities or meet tight deadlines to implement changes. At Coquina Systems, we understand these challenges and have expertise in the Fortinet family of products.   Our experts can help your clients:

- Accelerating implementation of technology
- Assisting operations teams
- Optimizing security capabilities
- Continuing to support ongoing operations of the Fortinet Security Fabric deployment

Our services help your clients from the beginning design phase, thru implementation and ongoing service operations.

Design & Implementation Services

- Network design, configuration and integration
- Firewall migration and replacements
- Software upgrade and platform migration
- Wireless configuration and deployments

Ongoing Operational Projects

- FortiGate health checkups
- Compliance audit preparation
- Lab testing and validation
- Custom training and deployment

WHY COQUINA SYSTEMS?

Coquina Systems is an IT services company with a broad range of services in IT Staffing, Data Center Consolidation, Security Threat Remediation and Managed Services. Our proactive approach in our services portfolio provides fast response times, exceptional quality and cost-effective delivery. We have certified IT professionals to deliver the design, implementation, migration and management of services for both on-premise and cloud technologies. And because we deliver IT services exclusively to Channel Partners and Solution Providers, we're there to help your clients with their Fortinet technology needs, as an extension of your team, not competitive to it.
